

**Dr. Rajdeep N. Agrawal**  
**M. D., D.M. (Cardio.)**  
**Fellow, Interventional Cardiology, Frankfurt, GERMANY**  
**Interventional Cardiologist**

Dr. Rajdeep Agrawal is an Interventional Cardiologist. He had the privilege of training under Dr. Mathew Samuel for 2 years during which time he was closely associated with angioplasty programme.

Subsequently, he worked as a Fellow in Interventional Cardiology at Frankfurt Heart Centre, Frankfurt, GERMANY, one of the largest centers in the world for angioplasty. He was a part of various multicentre trials & research activities conducted at the center. Also, he was a member of core angiographic laboratory for the major trial (ERBAC TRIAL) comparing Laser, Rotablator & Balloon Angioplasty in complex coronary lesions.

He has experience of more than 1800 angioplasties & 4000 angiographies. He is one of very few in Mumbai who is doing maximum vascular interventions in Diabetic foot & various other peripheral vascular diseases.

**Interventional expertise:**

Extensive experience in coronary angioplasties specially using new techniques such as intracoronary stenting, laser angioplasty, percutaneous rotablator atherectomy, angioplasty in Acute MI., high risk angioplasty using IABP support.

- Vascular interventions - peripheral, renal & carotid.
- Valvuloplasties (mitral, pulmonary & aortic), angioplasty in coarction of aorta and various
- pediatric interventions.
- Permanent Pacemaker implantations.

**Professional Qualifications:**

1985	MBBS from LTMMC & LTMGH, Sion, Mumbai
1989	M.D., from LTMMC & LTMGH, Sion, Mumbai
1991	D.M., from Seth G. S. Medical College & KEM Hosp. Mumbai

**National & International Presentations:**

Presented various papers on coronary Interventions, Intracoronary Stenting, Percutaneous Rotablator and various other cardiological topics at Cardiological Society of India, German Society of Cardiology, and European Society of Cardiology & American College of Cardiology annual meetings.
